PPAC's Snapshot of India's Oil & Gas data

Abridged Ready Reckoner December, 2020

Petroleum Planning & Analysis Cell

(Ministry of Petroleum & Natural Gas)

As on 27.01.2021

Petroleum Planning & Analysis Cell (PPAC), an attached office of the Ministry of Petroleum & Natural Gas (MoPNG), Government of India, collects and analyses data on the Oil and Gas sector. It disseminates many reports on the Oil & Gas sector to the various stakeholders. The data is obtained from the Public Sector companies, Government agencies as well as the Private companies. The number of CNG vehicles is being reconciled & has not been included in this ARR. Given the ever-increasing demand for energy and transition of energy demand to renewables and Biofuels, Policy makers and Analysts need to be well informed about the updated trends in the Oil & Gas industry.

The PPAC's Snapshot of India's Oil & Gas data (Abridged Ready Reckoner) provides a comprehensive compilation of the latest data/information in a single volume for the latest month and historical time series. The Snapshot of India's Oil & Gas data is also published on PPAC's website (www.ppac.gov.in) and is accessible on mobile app-PPACE.

This publication is a concerted effort by all divisions of PPAC. The cooperation of the oil and gas industry is acknowledged for their timely inputs.

20	Coal Bed Methane (CBM) gas development in India	27
21	Major natural gas pipeline network	27
22	Existing LNG terminals	27
23	Status of PNG connections & CNG stations across India	28-32
24	Domestic natural gas price and gas price ceiling	33
	TAXES & DUTIES ON PETROLEUM PRODUCTS	
25	Information on prices, taxes and under-recoveries/subsidies	35-36
	MISCELLANEOUS	
26	Capital expenditure of PSU oil companies	38
27	Conversion factors and volume conversion	39

Highlights for the month

- The consumption of petroleum products in December 2020 with a volume of 18.6 MMT recovered to 98.2% of the volume of 18.9 MMT in December 2019. Petroleum products consumption during the period April to December 2020 recovered 87.2% of the consumption during the same period previous year.
- The products which registered a growth in the month of December 2020 were LPG 7.4%, Petrol (MS) 9.3%, Bitumen 20.9%, Lubes & Greases 8.5%, Light Diesel Oil (LDO) 87.4% and products categorised under “Others” category 8.4%.
- Ethanol blending with Petrol was 6.1% during December 2020.
- Total consumption of natural gas (including internal consumption) for the month of December, 2020 was 5050 MMSCM which was 4.6 % lower than the corresponding month of the previous year. The cumulative consumption of 45124 MMSCM for the current year till December, 2020 was lower by 5.5% compared with the corresponding period of the previous year.
- Indigenous crude oil and condensate production during December 2020 was lower by 3.6% than that of December 2019 as compared to a de-growth of 4.9% during November 2020. OIL registered a growth of 16.2 % and ONGC registered a de-growth of 2.8% during December 2020 as compared to December 2019. PSC registered de-growth of 11.6% during December 2020 as compared to December 2019. De-growth of 5.7% was registered in the total crude oil and condensate production during April- December 2020 over the corresponding period of the previous year.
- Crude oil processed during December 2020 was 21.0 MMT, which was 0.9% higher than December 2019 as compared to a de-growth of 5.1% during November 2020. De-growth of 15.8% was registered in the total crude oil processing during April-December 2020 over the corresponding period of the previous year.
- Production of petroleum products saw a de-growth of 2.8% during December 2020 over December 2019 as compared to a de-growth of 4.8% during November 2020. De-growth of 13.5% was registered in the total POL production during April-December 2020 over the corresponding period of the previous year.

<ul style="list-style-type: none"> Gross production of natural gas for the month of December, 2020 was 2425 MMSCM which was lower by 7.1% compared with the corresponding month of the previous year. The cumulative gross production of natural gas of 21129 MMSCM for the current financial year till December, 2020 was lower by 11.3% compared with the corresponding period of the previous year.
<ul style="list-style-type: none"> Crude oil imports increased by 9.5% and decreased by 15.1% during December 2020 and April-December 2020 respectively as compared to the corresponding period of the previous year.
<ul style="list-style-type: none"> POL products imports increased by 1% and 1.1% during December 2020 and April-December 2020 respectively as compared to the corresponding period of the previous year. Increase in POL products imports during April-December 2020 was due to increase in imports of fuel oil (FO), liquified petroleum gas (LPG) and bitumen.
<ul style="list-style-type: none"> LNG import for the month of December, 2020 was 2695 MMSCM which was -2.2% lower than the corresponding month of the previous year. The cumulative import of 24667 MMSCM for the current year till December, 2020 was higher by 0.3% compared with the corresponding period of the previous year.
<ul style="list-style-type: none"> Exports of POL products decreased by 27.6% and 15.9% during December 2020 and April-December 2020 respectively as compared to the corresponding period of the previous year. Decrease in POL products exports during April-December 2020 (P) was due to decrease in exports of aviation turbine fuel (ATF), naphtha, motor sprit (MS), high speed diesel (HSD), fuel oil (FO), vacuum gas oil (VGO), superior kerosene oil (SKO), liquified petroleum gas (LPG) and bitumen.
<ul style="list-style-type: none"> The price of Brent Crude averaged \$49.86/bbl during December, 2020 as against \$42.66/bbl during November 2020 and \$67.02/bbl during December 2019. The Indian basket crude price averaged \$49.84/bbl during December 2020 as against \$43.34/bbl during November 2020 and \$65.50 /bbl during December 2019.
