## **Acknowledgement**

PPAC thanks IOCL, BPCL and HPCL for providing useful inputs for inclusion in this document.

## **Disclaimer**

While every care is taken to check the accuracy of the data & information included in this document, PPAC would not be held responsible for any loss, damage etc due to action taken by anyone based on information contained in this document.

## **Summary of LPG Profile**

The salient points of LPG marketing as brought out in the LPG Profile for the period April 2021 -December 2021 (i.e. as on 1<sup>st</sup> January 2022) are as under: -

1. PSU OMCs (IOCL, BPCL and HPCL) together have 30.53 crore active LPG customers in the domestic category which are being served by 25,192 LPG distributors. The LPG coverage of the country estimated on the basis of active domestic connections and estimated households as on 1<sup>st</sup> April 2021 is around 99.8%.

The LPG coverage is calculated by PSU OMCs based upon the active LPG domestic connections and the estimated number of households. The number of households has been projected by PSU OMCs based on 2011 census data. Factors like increasing nuclearization of families, migration of individuals/ families due to urbanization and reduction in average size of households etc. impact the growth of number of households. Due to these factors, the estimated no. of households through projection of 2011 census data may slightly differ from the actual no. of households in a State/UT. Further, this methodology does not include PNG (domestic) connections.

2. PSU OMCs have a total of 202 LPG bottling plants all over India with rated bottling capacity of around 21.57 million metric tonnes per annum (MMTPA).
3. PSU OMCs sold nearly 18.8 Million Metric Tonnes (MMT) of packed domestic LPG during April 2021 -December 2021.
4. 141.15 lakh new domestic customers were enrolled by PSU OMCs during April 2021 - December 2021. During the same period, PSU OMCs have added 109 distributorships.
5. PSU OMCs have a total of 634 Auto LPG Dispensing Stations all over India for catering to LPG demand in the automotive sector.

## LPG MARKETING AT A GLANCE

\*The estimated no. of households as on 1.4.2021 is arrived at using household growth rate during the decade 2001-2011 as per Census 2011

The LPG coverage is calculated by PSU OMCs based upon the active LPG domestic connections and the estimated number of households. The number of households has been projected by PSU OMCs based on 2011 census data. Factors like increasing nuclearization of families, migration of individuals/ families due to urbanization and reduction in average size of households etc. impact the growth of number of households. Due to these factors, the estimated no. of households through projection of 2011 census data may slightly differ from the actual no. of households in a State/UT. Further, this methodology does not include PNG (domestic) connections.
